

MAHMOUD EL-SAYED AHMED

Frontend Developer • Fresh Graduate

Banha, Qalyubia, Egypt | mahmoud202202766@gmail.com | 01203101989 | github.com/mahmoud202202766-creator | linkedin.com/in/mahmoud-elhayad-310561311

SUMMARY

Frontend developer, graduate of October 6 University (B.Sc. Computer Science, Faculty of Computers and Information Technology, 2026), also trained through ITI's Web Technologies program. Builds clean, responsive interfaces with React, TypeScript, and Tailwind CSS, turning ideas into working products. Currently deepening Next.js skills for full-stack development while taking on freelance frontend work.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, C++

Styling: Bootstrap, Tailwind CSS, Sass

Framework & Routing: React, Next.js, React Router

State & Data: Zustand, TanStack (React) Query, React Hook Form, Zod

Backend & Auth: Firebase, Supabase

PROJECTS

Blog App — github.com/mahmoud202202766-creator/blog-app · [Live demo](#)

- Full CRUD blog application connected to a REST API, migrated from json-server to MockAPI.
- Deployed on Vercel; built as one of two primary showcase projects.

Movie Search App — github.com/mahmoud202202766-creator/movie-search-app

- React app using the TMDB API with Firebase Authentication and Firestore-backed per-user bookmarks.
- Built trending/recommended browsing, search, and dedicated Movies/TV Shows pages with React Router.

Weather Now — github.com/mahmoud202202766-creator/weather-now · [Live demo](#)

- Frontend Mentor weather app challenge rebuilt in React with live forecasts via the Open-Meteo API.

Prayer Time — github.com/mahmoud202202766-creator/Prayer-Time · [Live demo](#)

- Shows the five daily prayer times for a chosen city, with the current Hijri date.

Quiz App — github.com/mahmoud202202766-creator/Quiz-App · [Live demo](#)

- Interactive multiple-choice quiz built with vanilla JavaScript.

EDUCATION & TRAINING

B.Sc. Computer Science — **October 6 University**

Faculty of Computers and Information Technology • Graduated June 2026

Web Technologies Program — **ITI (Information Technology Institute)**

Completed training in modern web development technologies

DEPI — **Digital Egypt Pioneers Initiative**

Software Development track — React Frontend Web Developer
